Building the Workforce of Tomorrow, Today

At DailyLiveJob.in, we are an innovative platform dedicated to connecting skilled professionals with top industries across India. By focusing on rapid recruitment, skill development, and payroll management, we ensure that both job seekers and employers experience efficient, high-quality services. Our expertise lies in sectors like manufacturing, textiles, and electronics, providing a tailored approach to meet industry needs. Our Master Skill Development Course guarantees job placement within 15 days, maintaining a 100% success rate for graduates. Backed by the Government of Bihar under its Startup Policy, we are supported in our mission to empower India's workforce and drive industrial growth. This backing further strengthens our credibility and allows us to scale our impact, contributing to the state's and the nation's economic development.

We prioritize addressing the needs of industries by supplying them with qualified, job-ready professionals while also fostering career growth for individuals. By aligning our training with current market demands, we ensure that candidates not only find employment but are equipped with the skills necessary for long-term success. This dual focus on skill-building and job placement underpins our unique value proposition, offering a sustainable and scalable solution for both candidates and industries.

Vision

Becoming India's premier platform for skilled job placement and workforce management, fostering sustainable growth by providing industries with highly trained and job-ready professionals.

Mission

To empower skilled workers by connecting them with job opportunities and providing industry-aligned training. We aim to bridge the gap between job seekers and employers, ensuring rapid recruitment and workforce readiness, contributing to the growth of industries across India.

Problem

Employers

Many industries face recruitment inefficiencies due to skill mismatches, long hiring cycles, and a lack of job-ready candidates. Employers struggle to find skilled workers quickly, leading to operational delays and higher hiring costs. DailyLive India addresses these challenges by offering a streamlined recruitment process, filling vacancies within 7 days with highly trained, industry-ready professionals. Our comprehensive skill development programs ensure that candidates meet the specific needs of industries, reducing the time and effort spent on additional training.

Colleges

ITI colleges often face challenges in bridging the gap between academic training and industry requirements, resulting in lower employability rates for graduates. Traditional curricula may not always align with the fast-evolving needs of industries, leaving students underprepared for the workforce. DailyLive India solves this by offering industry-aligned training programs and a 100% placement guarantee within 15 days of course completion, ensuring that students are both job-ready and placed in relevant roles immediately upon graduation.

Placement

We specialize in fast, reliable job placements across key industries, including manufacturing, textiles, and electronics. Our recruitment process ensures that companies get qualified workers within 7 days. We work with both the government and private sectors to provide job seekers with opportunities that match their skills and career aspirations.

Skill Development

Our flagship Master Skill Development Course focuses on training candidates in industry-relevant skills. We collaborate with businesses to create tailored training programs, ensuring participants are job-ready. We also offer a 100% placement guarantee within 15 days of completing the program, giving both companies and candidates confidence in the process.

Payroll Management

We provide comprehensive payroll management services, helping companies streamline their payroll operations. From salary processing to compliance, we handle everything, allowing businesses to focus on growth. This service ensures that employees receive their pay on time, and companies maintain compliance with labor laws.

Unique Value Proposition

Rapid Recruitment

Our process ensures employers fill vacancies within 7 days, allowing businesses to maintain productivity and reduce downtime.

Guaranteed Placements

We offer a 100% job placement guarantee for graduates of our Master Skill Development Course, assuring employers receive skilled, job-ready candidates in just 15 days.

Tailored, Industry-Specific Training

We focus on sectors like manufacturing, textiles, and electronics, ensuring candidates are trained with skills that align with specific industry needs, minimizing additional training for employers.

Government Backing

Supported by the Government of Bihar under its Startup Policy, we operate with credibility and resources, making us a trusted partner for both industries and educational institutions. This backing enhances our capacity to scale and deliver impactful solutions to a broad range of sectors.
